PRESS RELEASE

New qualifications comparison service for migrant workers

Eileen Lavery, Head of Advice and Compliance, Equality Commission for Northern Ireland, welcomed the introduction today of the new qualifications comparison service for workers from outside Northern Ireland.

“This is in line with a recommendation we made in our formal investigation, ‘The Role of the Recruitment Sector in the Employment of Migrant Workers’, published in June 2010,” she said. “This is a free-to-use service which will help migrant workers compete fairly for jobs, and it will enable employers to accurately assess their merits.”
