## **Programme for Government: Equality Commission recommendations**

The Equality Commission has set out its recommendations in relation to the next Programme for Government (PfG) and Budget of the NI Executive.

We have highlighted the need for a clear commitment in the PfG to address key inequalities experienced by S75 groups, underpinned by robust measures, as well as a commitment to promote good relations.

The Commission also recommends that the PfG includes actions relating to:

- Social Attitudes
- Education
- Employment
- Access to Social Protection
- Accommodation, Housing & Communities
- Health and Social Care and Well Being
- Participation in Public Life and Decision making
- Reform of Equality law
- Gaps in Equality Data
- Develop/Implement Equality Strategies
- Compliance with International Conventions
